

Pat and I would like to acknowledge the great assistance and help provided by Angie at Saskatoon 33rd Street Co-op Travel, and Viking River Cruises in booking and arranging our recent river cruise to Eastern Europe (Passage to Eastern Europe with Viking River Cruises). This first visit to Eastern Europe was very educational.

Budapest's Matthias Church

Angie in particular took great care to ensure that Viking booked the best possible combination of flight arrangements for us, particularly in terms of our departing flights. And due to an unforeseen medical emergency by another passenger on our initial flight out of Edmonton, working with us and Viking River Cruises to adjust our schedule as required to join our tour at the first possible opportunity compensating for our missing a connection in Ottawa.

We also can't say enough about the Viking. This was our first river cruise as compared to the traditional ocean cruise. We found this cruise be much more intimate than larger ocean cruises. Viking personnel were exceptionally friendly and service-oriented. While the selection was more limited, the meals were great, tasty, and presented very well. The free wine service that accompanied each meal was a welcome perk. Our cabin (with a small balcony) was every bit as spacious as some that we have had on larger ocean going vessels. Would we sail on Viking again – definitely!
